Superintendent Report:

Current open positions for next school year are: Science (maybe) and junior high (maybe). Mr. Patterson was able to get a verbal commitment from an Art teacher who graduates from Western at the end of the summer.

Playground work has started. Final drawings and building plans for the Main Entrance renovation are nearly complete. Sheridan Electric will not be able to install the football field lighting until next spring.

Of the students anticipated to return for the 2023-2024 school year, 12 High School, 5 Junior High, 7 Upper Elementary, and 12 Lower Elementary students (6 - Speech only) will receive special education services (36 total). An additional SPED teacher, Ms. Kristine Eblacas, has been hired to assist Ms. Ketcher with the case load.

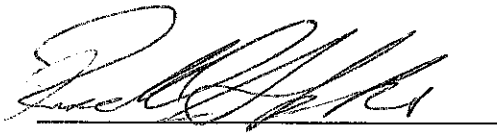

Mr. Patterson attended the Roose-Valley Special Education Coop conference in Glasgow on Wednesday, June 7th and the Indian Impacted Schools of Montana annual conference in Helena on Friday, June 9th. Both trainings were enlightening and the information learned will benefit the School District.

During the past school year, several students took History and Science courses online through Edgenuity, a Montana approved online course provider. In total, 126 half credit courses were taken. Of that number, 73 courses were passed with a score of 70 or better, 23 were passed with a score between 60 and 69, and 30 were failed with a score below 60. While not perfect, the program benefited the majority of students as 74% achieved passing scores.

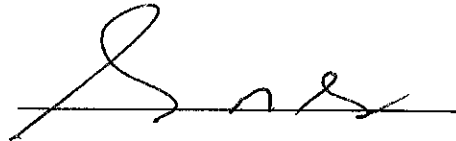

The School District attorney states that the District can only drug test students participating in activities. With that in mind, the Board needs to decide whether or not it wishes to continue with testing. The District could consider randomly testing all student participants once during the activity. For those who test positive, the District could follow-up with an additional test after 4 weeks to determine readmittance into the activity. Or, the District could not test at all and only test those who administration has reasonable suspicion of being under the influence. The District also needs to determine if there should be school based consequences for those caught in possession of drugs, both on and off campus, or if law enforcement-based consequences are sufficient.

With no further business, RaeJean Belgarde made a motion to adjourn. The motion was seconded by Oliva Johnson. Motion carried 5-0.

Meeting adjourned at 8:05 P.M.
